NCGA Course in Pebble Beach Installs 4View Swing Recorder

4View Digital Swing Recorder is installed at Poppy Hills Golf Course

Pebble Beach, CA 8-5-05 – Inpractis Corporation announced the installation of its innovative 4View Digital Swing Recorder product at the Poppy Hills Golf Course, one of two member courses of the Northern California Golf Association (NCGA). The 4View system was installed on a specially prepared site of the Poppy Hills driving range. While the driving range at Poppy Hills is predominately grass, management had a special mat hitting area built to host the 4View. Installation of a 4View system at Poppy Ridge, the sister course to Poppy Hills, is underway and is expected to be completed very soon.

4View User Interface

4View in use

The 4View Digital Swing Recorder (DSR) is a powerful digital video capture device that golfers can use at the driving range to record, play back and analyze their swing. The innovative system captures the entire golf swing from two angles simultaneously and measures club head and ball flight speed; it provides a very powerful tool for the analysis and improvement of the swing.

Unlike many conventional swing recording systems, the 4View DSR is engineered to be a permanent fixture in the driving range bay and has been designed for complete self-service use by golfers. This highly interactive digital swing analysis tool features a patent pending user interface that is powerful yet extremely intuitive.

Both technically advanced and extremely rugged, 4View units are easily installed and require little to no maintenance from range operators.

Poppy Hills Golf Course in Pebble Beach is a Robert Trent Jones II design that opened for play in 1986 and is home to the Northern California Golf Association. It is the first course in the United States to be owned and operated by an amateur golf association.

“The NCGA is an outstanding organization and Poppy Hills is a great course, with a great practice facility. Golfer’s from all over come here to enjoy a Pebble Beach golf experience.” said Marc Brown, president of Inpractis Corporation. “Now they can enjoy a great practice experience with 4View.”

About Inpractis Corporation:

Inpractis Corporation was formed for the purpose of developing, manufacturing, and marketing advanced motion analysis systems. These systems are designed to help athletes enjoy and improve their skills by providing powerful yet easy-to-use tools for athletic motion analysis. Inpractis motion analysis devices enable the user to record, view and analyze his or her golf or batting swing using real time visual feedback; the systems are typically installed in driving ranges and batting cages and can serve as an effective instructional aid for parents, coaches and teaching professionals. Easy-to-use, 4View Digital Swing Recorder systems are located primarily at golf practice ranges, providing convenient access to those golfers who wish to improve their swing mechanics. Incorporating patented technology, the systems benefit the golfer, the practice range, and the teaching professional.

Inpractis Corporation is headquartered at 32980 Alvarado Niles Rd. #820, Union City, CA 94587 - 3186. The company may be reached by telephone at (510) 471-3900. For more information please visit: www.inpractis.com.
