FOR IMMEDIATE RELEASE

Inpractis Corporation Enters Endorsement Agreements with PGA Tour Pros Joe Ogilvie and Jason Bohn

Agreement between Inpractis and the two PGA tour pros defines a marketing relationship

Union City, CA 6-12-06 – Inpractis Corporation, a leading North American designer and marketer of sports motion analysis technology, announced it has signed endorsement agreements with Joe Ogilvie and Jason Bohn, two celebrated PGA Tour members, as part of plans to promote its SwingPractis™ swing analysis software and the Inpractis™ Digital Swing Recorder (DSR) systems.

As part of the agreement, Bohn will wear the Inpractis corporate logo on his shirt during all PGA tournaments and events. Both professionals will also personally support and participate in several Inpractis marketing programs, including personal appearances at Company sponsored event, providing model swing videos for use in Inpractis swing recording and analysis products and on the Company's golf instruction web portal.

“We are honored to have Joe and Jason representing Inpractis,” said Marc Brown, President and CEO of Inpractis. “I have been a fan of both players and I am pleased to now work with them. They are well respected among their peers and the public and they represent the values of integrity, hard work and dedication that we hold as keys to our own success.”

“I was very impressed with the Inpractis products when I was introduced to them this past February,” said Joe Ogilvie. “A lot of thought was put into the Digital Swing Recorder and the SwingPractis software to make them easy to use by anyone. They represent outstanding learning tools that, up until now, have really only been available to professionals. Ironically, it is amateur golfers that can benefit the most from this kind of technology. High or low handicap, hitting balls on the range without any feedback isn't very effective. Whether you are working with a pro or not, practice is better with an extra set of eyes watching; the DSR performs that task. I really believe that in the next few years every serious golfer will regularly use the DSR as part of their practice session.”

“One of the significant benefits the technology of Inpractis products brings to me and all golfers,” said Jason Bohn. “Is the ability to stay in touch with our instructor regardless of the distance between us. The Internet-enabled aspects of the Inpractis swing analysis tools combined with their ability to create effective instruction content makes distance-learning in golf a reality. I think their SwingPractis swing analysis software will become the Internet standard for creating and distributing golf instruction content.”

About the Inpractis Digital Swing Recorder

The Inpractis Digital Swing Recorder (DSR) is a powerful digital video capture device that golfers can use at the driving range to record, play back and analyze their swing. The innovative system captures the entire golf swing from two angles simultaneously and measures club head and ball flight speed; it provides a very powerful tool for the analysis and improvement of the swing.

The Inpractis DSR is engineered to be a permanent fixture in the driving range bay and has been designed for complete self-service use by golfers. Both technically advanced and extremely rugged, they are easily installed and require little to no maintenance from range operators.

About the SwingPractis™ swing analysis software

The SwingPractis™, Basic version, is a powerful, free-of-charge swing analysis software package. It includes a host features that allows golfers to view and analyze video clips of golf swings. It also supports a viewer for a new instructional video format, the SwingPractis™ Lesson. An advanced version of SwingPractis™ is available free-of-charge to professional golf instructors. SwingPractis™ Pro includes the capability to import existing digital videos and to record live from a DV Camera. In addition, the Pro version includes tools to create SwingPractis™ Lessons. SwingPractis™ Pro is an ideal software platform for a professional studio swing capture and analysis system and together with SwingPractis™ Basic is a great tool for instructor-student communication

About Joe Ogilvie

Member of the PGA TOUR from 1999 to 2002 and 2004 to 2006. On the PGA Tour in 2004, had his first runner-up finish at the HP Classic of New Orleans. In 2005, finished in the top 50 on the money list for the second consecutive season on the strength of five top-10 finishes: a T2 at the Bob Hope Chrysler Classic, a T2 at the Honda Classic, a 6 at the Shell Houston Open, a T8 at the Bay Hill Invitational Presented by MasterCard and a T9 at the Chrysler Classic of Tucson. Finished 37th on 2005 PGA Tour money list. Was second to Zack Johnson on the Nationwide Tour money list in 2003 to regain his Tour Card.

About Jason Bohn

Member of the PGA TOUR since 2004 and champion of the 2005 B.C. Open. Gave up his amateur status in 1992 after winning a \$1,000,000 prize in a 1992 Hole-in-One Shoutout while attending the University of Alabama. Besides his victory, Bohn had a second in the Deutsche Bank Championship, and a T3 in the Chrysler Classic of Greensboro. He Finished 35th on 2005 PGA Tour money list. Bohn also has victories on the Nationwide and Canadian tours.

About Inpractis Corporation:

Inpractis Corporation is a leader in video motion analysis systems and software and in Internet-based instruction for sports. Inpractis products help athletes improve their skills by providing powerful yet easy-to-use tools for athletic motion analysis. Recognizing that feedback is only part of the improvement equation, Inpractis also provides tools for teaching professionals to create and disseminate highly effective instructional material over the Internet. Industry-lauded Inpractis™ Digital Swing Recorder systems are located primarily at golf practice ranges, providing convenient access to those golfers who wish to improve their swing mechanics. SwingPractis™, the swing capture and analysis software package from Inpractis, is setting a new standard in the golf world for computer and Internet based instruction. Incorporating patented technology and innovative design, Inpractis products benefit the golfer, the practice range, and the teaching professional.

Inpractis Corporation is headquartered at 32980 Alvarado Niles Rd. #820, Union City, CA 94587 - 3186. The company may be reached by telephone at (510) 471-3900. For more information please visit: www.inpractis.com.
